LETTER OF TRANSMITTAL

Hon. John Hammill, Governor.

Sir: As provided by law, I herewith submit to you and to the members of the Forty-Second General Assembly, the Ninth Biennial Report of the Iowa State Board of Education for the period July 1, 1924, to June 30, 1926. This report contains the observations and conclusions of the Board respecting the State University of Iowa, the Iowa State College of Agriculture and Mechanic Arts, the Iowa State Teachers College, the Iowa School for the Blind, and the Iowa School for the Deaf. It also contains the statistical reports of the executives of these five educational institutions.

Geo. T. Baker, President.

Des Moines, Iowa, August 31, 1926.

BIENNIAL REPORT OF THE IOWA STATE BOARD OF EDUCATION

In accordance with law, the Iowa State Board of Education is submitting its Ninth Biennial Report to the Governor and to the Forty-Second General Assembly. During the last two years, the total attendance in the three state institutions of higher learning has increased approximately 1,000. The attendance was the largest in their history. This shows the attitude of the people of Iowa toward education. Parents are insisting that their children be edu-They are hungry for knowledge. During the biennial period, the number of boys and girls enrolled in high schools has increased greatly. As far as the State Board of Education can determine at the present time, the tendency indicates continued increase in the enrollment at the state institutions of higher learning. During the last few years, junior colleges have been established in connection with high schools in a number of cities. policy makes it possible for boys and girls to remain at home during the freshman and sophomore years. This has increased the number of students enrolled in the junior and senior years of colleges and universities. This increased attendance compels the State Board of Education to ask for larger appropriations in order to secure additional teachers. Tables showing the financial requests are given in this report.

The State Board of Education is asking for a new library at the State University, a dairy building for educational purposes at the Iowa State College of Agriculture and Mechanic Arts, and a new heating and power plant at the Iowa State Teachers College. The cost of the completed library building will be approximately \$2,250,000.00. After having given much serious consideration to the request, the Board decided to ask for an appropriation of \$450,000.00 a year for five consecutive years; the first money to be available on July 1, 1928. It was thought best to do this instead of asking for an appropriation to be available at one time. Four years ago, the Fortieth General Assembly accepted the so-called Rockefeller gift for the medical plant at the State University, and made an appropriation of \$450,000.00 for five consecutive years. Payments under that act will terminate during the fiscal year that will begin on July 1, 1927. The idea of the Board is that the

appropriation for the library building will follow the one for the medical plant, the amount payable annually being the same.

A dairy building is needed very much at the Iowa State College. During the past few years the growth of the dairy industry in this State has been large, and in the future that business will increase greatly throughout the State. The present quarters for classrooms and laboratories and the creamery are entirely inadequate and unsuited to the demands. The cost of this building will be approximately \$500,000.00.

The heating and power plant at the State Teachers College was built many years ago. Several of the boilers have been used for twenty years. Because of its inadequate condition the plant is very expensive to operate. During the last few years, several buildings, such as dormitories for women and the gymnasium for men, have been built. The heating of this extra space has taxed the plant to the utmost. A new plant is needed. The cost will be approximately \$325,000.00.

The Forty-First General Assembly directed the State Board of Education to make, at once, a careful study of conditions at the three institutions of higher learning, for the purpose of determining whether or not unnecessary duplication exists, and where and in what manner the expense of maintaining the institutions might be reduced; to provide for the elimination of all unnecessary effort, both in the courses of study maintained and in other educational work done; and to report to the Governor of Iowa, in detail, on or before July 1, 1926, the action taken. In compliance with that joint resolution, a most careful, thorough and comprehensive study was made and a report was filed. Several months ago, the executives of the three institutions of higher learning were instructed to carry out the spirit of the several recommendations and to put them into effect as soon as feasible and possible.

APPROPRIATION BILL—STATE EDUCATIONAL INSTITUTIONS

The appropriation bill prepared by the Director of the Budget, in so far as it relates to the state educational institutions, is as follows

Sec. 47. For the State Board of Education, for the administration, maintenance, operation, additions and betterments of the State University of Iowa, at Iowa City; the Iowa State College of Agriculture and Mechanic Arts, at Ames; the Iowa State Teachers' College, at Cedar Falls; the Iowa School for the Deaf, at Council Bluffs; the Iowa School for the Blind, at Vinton; the University Hospital, at Iowa City; the Psychopathic Hospital, at Iowa City; and the Bacteriological Laboratory, at Iowa City:

There is hereby appropriated the sum of Fourteen Million, Three Hundred Seventy-five Thousand, Three Hundred Thirteen Dollars and Twenty Cents (\$14,375,313.20), or so much thereof as may be necessary, for the biennium beginning July 1, 1927, and ending June 30, 1929, to be used

in the following manner and for the following purposes, to-wit:

State University of Iowa (See page 158-9 Budget Report)

(1) For the State University of Iowa, at Iowa City, for the said biennium, the sum of Five Million, Eighty-one Thousand, Three Dollars and Twenty Cents (\$5,081,003.20), or so much thereof as may be necessary, to be expended as follows:

Administration and General Expenses	\$ 259,000.00
Physical Plant Operation	. 825,076.00
Educational Purposes	. 2,730,000.00
Extension	
Maternity and Infant Hygiene	
Epidemiology	. 34,500.00
Child Welfare	. 71,500.00
For Special Purposes:	
New Library, first unit, to be available on and afte	r
July 1, 1928	
Remodeling Buildings	. 70,000.00
Water System for Campus	. 60,000.00
Campus Lighting System	. 30,000.00
Paving, Sidewalks, Sewers	. 100,000.00
Grading Hospital Grounds	
Equipment for All Departments	
Heating Plant and Extensions	. 160,000.00

\$5,081,003.20

(Note: The Fortieth General Assembly, Chapter 63, appropriated, in connection with the Rockefeller Foundation and the general education board, the sum of four hundred fifty thousand dollars (\$450,000.00) annually for five years, for the completion of the hospital and the plant of the college of medicine and for equipping the same, at Iowa City. The amount needed under said appropriation for the biennium beginning July 1, 1927, and ending June 30, 1929, would, therefore, be four hundred fifty thousand dollars (\$450,000.00). This amount is in addition to the appropriations which have been made herein for the State University of Iowa.)

Iowa State College of Agriculture and Mechanic Arts (See page 122 Budget Report)

(2) For the Iowa State College of Agriculture and Mechanic Arts at Ames, for the said biennium, Five Million, Two Hundred Fifty-four Thousand Dollars (\$5,254,000.00), or so much thereof as may be necessary, to be expended as follows:

Administration and Conoral European	\$ 259,000.00
Administration and General Expenses	
Library Operation	120,000.00
Physical Plant Operation	610,000.00
Educational Purposes	2,291,000.00
Agricultural and Home Economics Extension	420,000.00
Apiary Inspection	6,000.00
Engineering Extension	70,000.00
Agricultural Experiment Stations	470,000.00
Engineering Experiment Station	114,000.00
Veterinary Investigation	44,000.00
Industrial Research	50,000.00
Co-operative Marketing	50,000.00
For Special Purposes:	
New Dairy Building and Equipment for Same	
Other General Improvements	150,000.00
Equipment for all Departments	100,000.00
·	

\$5,254,000.00

· Iowa State Teachers' College (See page 190 Budget Report)

(3) For the Iowa State Teachers' College, at Cedar Falls, for said biennium, the sum of One Million, Three Hundred Nine Thousand Dollars (\$1,309,000.00), or so much thereof as may be necessary, to be expended as follows:

10110 (15)	
Administration and General Expenses\$	100,000.00
Physical Plant Operation	181,000.00
Educational Purposes	826,000.00
Extension Work	60,000.00
Summer School Extension	72,000.00
General Improvement	20,000.00
Contingent Fund	50,000.00
- 9	

\$1,309,000.00

Iowa School for the Deaf (See page 194 Budget Report)

(4) For the Iowa School for the Deaf, at Council Bluffs, for the said biennum, the sum of Four Hundred Thirty-six Thousand, Six Hundred Dollars (\$436,600.00), or so much thereof as may be necessary, to be expended as follows:

* Four Solving Support and Maintenance \$400,600.00

For Salaries, Support and Maintenance	400,000.00
For Special Purposes:	
	4000000
Equipment	16,000.00
	20.000.00
New Generator Wiring	20,000.00

\$ 436,600.00

Iowa School for the Blind (See page 195 Budget Report)

(5) For the Iowa School for the Blind at Vinton, for the said biennium, the sum of One Hundred Eighty-three Thousand, Four Hundred Dollars (\$183,400.00), or so much thereof as may be necessary, to be expended as follows:

For Salaries, Support and Maintenance\$ For Furniture and Fixtures	
For Special Purposes:	,
Oculist	200.00
Equipment	3,000.00
General Improvements	3,000.00
Reconstruction of Coal Bunkers	4,000.00
New Boilers	3,000.00

\$ 183,400.00

Medical and Surgical Treatment of Indigent Persons, University Hospital

(See page 196 Budget Report)

(6) For the purpose of carrying out the provisions of Chapter 199, Code of 1924, for the biennium beginning July 1, 1927, and ending June 30, 1929, the sum of One Million, Eight Hundred Fifty Thousand Dollars (\$1,850,000.00), or so much thereof as may be necessary, to be expended in the manner and under the authority provided in said chapter.

Psychopathic Hospital

(See page 197 Budget Report)

(7) For the Psychopathic Hospital, at Iowa City, the sum of Two Hundred Sixteen Thousand Dollars (\$216,000.00), or so much thereof as may be necessary, for the biennium beginning July 1, 1927, and ending June 30, 1929, to be used in the manner and under the authority provided in Chapter 197, Code of 1924; provided, however, that said amount shall be available in monthly installments, not exceeding Nine Thousand Dollars (\$9,000.00), and that said installments shall be expended only upon the submission of bills in the manner provided in Section 3984 of said chapter.

Bacteriological Laboratory

(See page 198 Budget Report)

(8) For the Bacteriological Laboratory, at Iowa City, for the biennium beginning July 1, 1927, and ending June 30, 1929, the sum of Twentynine Thousand, One Hundred Ten Dellars (\$29,110.00). or so much thereof as may be necessary, to be used in the manner and under the authority provided in Chapter 196, Code of 1924.

Soldier Tuition

(9) The sum of Twenty Thousand Dollars (\$20,000.00), or so much thereof as may be necessary, for the biennium beginning July 1, 1927, and ending June 30, 1929, for the payment of tuition for honorably discharged soldiers or sailors of the United States who are citizens of Iowa, who enroll in any division of the State University, at Iowa City, or the College of Agriculture and Mechanic Arts, at Ames, said payment being fixed at Twenty Dollars (\$20.00) for each such student for each semester and each Summer School.

RECOMMENDATIONS TO THE DIRECTOR OF THE BUDGET

The following report shows the askings that were submitted by the Iowa State Board of Education to the Governor, the Director of the Budget and the 42nd General Assembly for each of the five educational institutions under its supervision, for each year of the Biennial Period

that will begin July 1, 1927, and the amount that the Director of the Budget is recommending for the same period:

STATE UNIVERSITY

BRIEF ARGUMENTS IN SUPPORT OF RECOMMENDA-TIONS FOR APPROPRIATIONS FOR THE STATE EDUCATIONAL INSTITUTIONS

The absolute needs of the State University, the Iowa State College of Agriculture and Mechanic Arts, and the Iowa State Teachers College, for the next biennial period, are not less than they were during the biennial period that began July 1, 1923. The truth is the needs are greater for the following reasons:

- 1. That during the past year the attendance was the largest in the history of the institutions, and that, as far as the State Board of Education can determine at the present time, the tendency indicates a continued increase in the enrollment.
- 2. That the larger part of the growth of the institutions is in the upper and more expensive classes. The reasons for this seem to be as follows:
 - a. The policy which has been adopted in quite a number of cities of the State to establish Junior Colleges in connection with their high schools, makes it possible for students to remain at home during the freshman and sophomore years. The result of this is to increase the number of students enrolled in the Junior and Senior years of the state institutions of higher learning.
 - b. Each year the number of students enrolling in the graduate colleges of the State University and the Iowa State College has increased.

The report for the past year shows that more than 2,500 students had attended other colleges before entering the State University, and that the number of graduate students enrolled exceeded the number that matriculated in the College of Liberal Arts.

In May, 1925, the State Board of Education increased the tuition and fees at the three institutions. While it is impossible for us to state the entire effect of this, we are confident that, because of financial conditions, it kept a good many young people from entering the institutions; and thereby prevented the enrollment in the freshman and sub-collegiate classes from being as large as it would have been otherwise.

According to a recent report of the United States Bureau of Education, there were only 65,800 students enrolled in the year 1900 in all the colleges of the United States, and in 1924 the enrollment had increased to 726,124. If this rate of increase is con-

tinued, it means that approximately 51,000 more students will attend American colleges and Universities each year.

The old and famous eastern colleges and universities, such as Dartmouth, Princeton, Harvard, Yale, Columbia, etc., are filled to overflowing. The number of applicants for admission is several times the number that can be accepted. Last year there were only two Iowa students in the freshman class of the College of Liberal Arts of Harvard. Because of these crowded conditions, Iowa will be compelled, more and more, to educate her own young people. While a few years ago graduates of independent colleges of the State were students in the graduate colleges of eastern institutions, each year more of those young people are demanding admission to graduate classes of the State University and the Iowa State College. Their request cannot be ignored or refused. Iowa must provide educational opportunities for her young men and women. All this means a larger budget.

The field and scope of education is constantly being enlarged. This is not the result of the management, nor is it the result of the ambition of friends to have the institutions grow and develop. Since the close of the World War, this development has been so rapid in scientific, industrial and educational subjects that it has been almost impossible to keep pace with it. The State Board of Education believes that the people of Iowa are insisting and demanding that the educational institutions of this state offer opportunities to their young people at least equal to those of neighboring states. We must heed this demand. New subjects must be taught because parents insist upon it. They send their sons and daughters to the institutions to be educated. Even at the present time we hear criticisms about the inefficiency of the work of the institutions, and we are often asked the question "Why is it impossible for my son to study a certain subject in any one of the State institutions of higher learning?"

In general, those parents have the right to expect Iowa to provide suitable and proper educational opportunities for their children. When the State does not do this, they have the right to complain. These conditions exist. Often the State Board of Education is criticized severely because of the demand for large appropriations, and the statement is made that the cost of maintaining the institutions ought to be reduced. In other words, we are blamed because of these conditions. We do not create the conditions, neither are we responsible for the demands for educational oppor-

tunities. The importunities of the fathers and mothers, and the great desire on the part of their children to receive the benefits of an education, are responsible. Because of their insistence and the desire on the part of the people of the State for a higher type of citizenship, these institutions are maintained and courses of study are offered. This situation will not change as long as fathers and mothers insist that their children must have the advantages of higher education in a standard college or university, thoroughly equipped in every respect.

Unless the present appropriations for these three institutions are granted, the State Board of Education cannot expect to keep the present staff of instructors satisfied, and it will be impossible to maintain high standards of efficiency from year to year. This is an important and vital matter, and it ought to be considered on its merits in a most judicious manner.

BRIEF ARGUMENTS IN SUPPORT OF RECOMMENDA-TIONS FOR APPROPRIATIONS FOR THE STATE UNIVERSITY OF IOWA

The Askings of the Iowa State Board of Education for the use and benefit of the State University of Iowa for each year of the biennium that will begin July 1, 1927, are as follows:

Administrative Department\$ 50,000.	00
General University Expenses 50,000.	00
Physical Plant Operation 412,538.	00
For Educational Purposes:	
College of Liberal Arts 490,000.	00
College of Applied Science 70,000.	
College of Medicine 179,500.	
College of Education 97,500.

GRAND TOTAL for each year of the biennial period....\$3,013,501.60

The askings of the Iowa State Board of Education for the support of the State University of Iowa for the biennial period that will begin July 1, 1927, are based on the total appropriations granted by the 40th General Assembly. This amount has been apportioned to the different kinds of work as future needs may require, including new buildings.

The accompanying financial statement gives in detail the appropriations granted by the 40th General Assembly and the 41st General Assembly, and the proposed askings of the 42nd General Assembly. These are arranged so that comparisons can be made easily.

The Iowa State Board of Education calls attention to the following arguments in support of these askings:

These data conform to the legislative acts of the last two sessions of the General Assembly. The Board asked of the 41st General Assembly practically the same amount as was received from the 40th General Assembly, the only difference being a slight reduction in soldier tuition, and the addition of \$215,000 for supplementing the heating plant; the request, for support being practically the same as that granted by the 40th General Assembly. The 41st General Assembly finally appropriated \$5,106,811.20, which included the re-appropriation of the Rockefeller funds.

The 41st General Assembly, by not granting the entire request of the State Board of Education, compelled the Board to increase tuition and fees, which increase became effective September 1, 1925. This resulted in an increased income from the students of the State

University, amounting to between \$90,000 and \$95,000 for the twelve months period.

The State Board of Education is asking for an appropriation, for the next biennium, of \$6,027,003.20, that being the identical sum that was granted by the 40th General Assembly and slightly less than that asked of the 41st General Assembly.

It will be noted, by referring to the fourth column of the sheet of askings, that the items have been re-distributed somewhat, placing more in support and less in capital. The University has been greatly handicapped in certain departments by lack of funds. It will be most unfortunate if it finds itself unable to proceed with the research work as planned by the 40th General Assembly. We have been fortunate in securing outright gifts to carry on part of this work, but this money is soon gone. For example, Professor Starbuck received a gift of \$15,000 for character research work. This will be exhausted by the first of January and the work is by no means completed.

Under the head of "capital" it will be recalled that the \$450,000 medical appropriation annually was to continue for five years, beginning July 1, 1923. Therefore, the last payment will be available during the month of July, 1928. We are asking that this \$450,000 annually be continued to be used for a library. The estimate is that it will take about two million dollars to provide a library building for the students. The University has about \$600,000 worth of books at present. However, the building of the library could extend over a period of from four and a half to five years.

The specific askings in capital are based on estimates and have been cut to reduce the amounts to the figure of the 40th General Assembly.

An additional item of \$1,050,000 is carried under the head of "future growth". The situation regarding the extravagant piecemeal policy ought to be presented to the General Assembly. Our opinion is that if the members of the 42nd General Assembly could fully know and appreciate the expensive methods we have been compelled to work under when buying additional land for the State University, they would repudiate the policy by making larger appropriations for that purpose. When one building is completed on the campus the value of adjoining property is doubled and quadrupled. The Youde property, near the College of Dentistry, is an example of this situation. We have additional evidences of this as the University grows.

BRIEF ARGUMENTS IN SUPPORT OF RECOMMENDA-TIONS FOR APPROPRIATIONS FOR THE IOWA STATE COLLEGE OF AGRICULTURE AND MECHANIC ARTS

The Askings of the Iowa State Board of Education for the use and benefit of the Iowa State College of Agriculture and Mechanic Arts for each year of the biennium that will begin July 1, 1927, are as follows:

Administration	\$115,000.00	
Physical Plant Operation	503,288.00	\$ 618,288.00
For Collegiate work:		
Library Operation	100,000.00	
Agriculture		
Engineering		
Home Economics	145,000.00 515,000.00	
Industrial Science	65,000.00	
General College Expense	25.000.00	\$1,310,000.00
deneral Conege Expense	20,000.00	Ψ1,010,000.00
Non-Collegiate Work	70,000.00	
Vacation Courses	40,000.00	
Agricultural and Home Economics Extension	220,000.00	
Engineering Extension	40,000.00	
Agricultural Experiment Station	275,000.00	
Engineering Experiment Station	65,000.00	
Veterinary Investigations	30,000.00	
State Apiarist	6,000.00	
Industrial Research	50,000.00	004.000.00
*Soldiers' Tuition	8,000.00	804,000.00
Capital Purposes		. 396,500.00

The askings of the Iowa State Board of Education for the support of the Iowa State College of Agriculture and Mechanic Arts for the biennial period that will begin July 1, 1927, are based on the total appropriations granted by the 40th General Assembly. This amount has been apportioned to the different kinds of work as future needs may require, including new buildings.

GRAND TOTAL for each year of the biennial period....\$3,128,788.00

The accompanying financial statement gives in detail the appropriations granted by the 40th General Assembly and the 41st General Assembly, and the proposed askings of the 42nd General Assembly. These are arranged so that comparisons can easily be made.

The Iowa State Board of Education calls attention to the following arguments in support of these askings:

^{*}Of the appropriation for soldier tuition, the Iowa State College is to receive, for each honorably discharged soldier or sailor of the United States who enrolls in any division of the institution, \$20.00 for each semester and \$20.00 for each summer school.

- 1. It should be remembered that, by merely asking for the same appropriations given by the 40th General Assembly, the College will be placed in the same financial condition of four years ago, and must continue at that old rate of income for two additional years. With the increased attendance and increased costs of operation during this period, and the assurance of still greater enrollment during the next two years, it is evident that, without increase of income over a period of six years, the College must suffer seriously from such a handicap and its service to the people of Iowa be greatly curtailed.
- 2. The funds available for this institution were cut by the 41st General Assembly \$625,000 annually. This reduction very seriously affected our progress, and merely restoring this amount for the next two years will hardly overcome our present difficulties, to say nothing of future expansion. Not only should this amount be restored to us, but for the good of the College, it should be greatly increased.
- 3. Under Capital Expenditures or "For Future Growth and Development", the following requests are included:

At the meeting of the Iowa State Board of Education that was held on February 8, 1926, the Building and Business Committee submitted a report which included certain buildings that were needed at the Iowa State College:

I. Large Building Urgently Needed

Dairy Building and Equip-

ment \$500,000.00 II. Small Buildings Urgently Needed Veterinary Farm Buildings (4) Agronomy Farm Buildings (3) Horticultural Farm Bldgs. (3) \$*37,000.00 30,000.00 25,000.00 Horse Barn Addition (1 bldg.) **17,000.00 Feed Barn (1 bldg.)............ 25,000.00 Sheep Barn Addition (1 bldg.).... 8,000.00 Machine Shed (1 bldg.)....**10,000.00 152,000.00 Deduct the allowance for the 3 buildings (37,000, 17,000 and 10,000)..... 64,000.00 88.000.00 588,000.00 Horse Barn Addition (to complete building).....

^{*}Contract for cattle barn has been awarded at a total cost of about \$25,000.

**Contract has been awarded.

III. Not Essential But Desirable

Agricultural Engineering front (55x130 3	15 0 000 00	
stories)	150,000.00	
Chemical Engineering Building	160,000.00	
Veterinary Southwest Wing	45,000.00	
Standard Laboratory for Farm Crops etc.		
(48x100 2 stories)	57,000.00	
Foundry	65,000.00

Steam Tunnel and Heating Plant Extension		
(1500 feet)	67,000.00	
Remodel Horse Barn (Landscape Arch)	15,000.00	
Campus Trees (annually for 2 years)	10,000.00	
Extend sidewalks, paving and lighting	50,000.00	
_		

636,000.00

\$1,241,000.00

- 4. Owing to savings and reductions in some lines of work, we are enabled to make slight increases in others where the needs are more urgent. Even with these increases, we have kept our asking within the total amount appropriated by the 40th General Assembly. Among the increases indicated on the accompanying statement, we would call attention to the following:
- a. Total Educational Purposes: Increase only \$36,000 annually over total available four years ago.
- b. Collegiate Work: Savings of \$30,000 in non-collegiate and vacation courses allow for some expansion in Collegiate work.

 These conservative increases are as follows:
 - 1. Annual increase over 40th General Assembly appropriations for Engineering \$22,500
 2. For Home Economics 15,000
 3. For Industrial Science 30,000
 4. For Veterinary Medicine 4,500
- c. Library: An annual increase over four years ago of \$29,000. This is very badly needed for additional books to assist in important research work and in graduate study. Increased cost of binding and much higher prices for scientific publications make this necessary. Lack of funds has forced us to borrow books from other colleges and libraries. We feel this is a serious reflection on this state and such a practice should not continue. Because of reduced appropriations the past two years, the library has been unable to meet the great demands made upon it, and if we are to keep it up-to-date this increase will be barely sufficient.
- d. Administration: This shows a reduction from the 40th General Assembly's appropriations of over \$11,000 annually. We are asking for the same total as received this present biennium,

but with a different apportionment. Formerly we received annually \$80,000 for collegiate administration and \$60,000 for administration and general expenses. The new askings are for \$115,000 for administration only, and \$25,000 for general college expenses.

- e. Physical Plant Operation: This asking is practically the same as received from the 40th General Assembly, and an increase of only \$47,000 annually over the present rate of income. It includes all expense for maintenance of the physical plant, repairs to buildings, care of public grounds, replacements and minor improvements, and equipment. It is barely sufficient to meet the present needs, and a much larger increase would be desirable.
- 5. While the educational work of the College which is conducted on the campus at Ames might be considered of primary importance, yet the work in industrial service, through the extension and experimental departments extending their service over the entire state, is equally valuable. In support of the askings for this work, we offer the following:

Total Industrial Service Work: An increase of \$114,000 annually over total available four years ago. This increase is allotted to the following funds:

- a. Industrial Research: By transfers from other funds, \$50,000 annually has been set aside for expansion of industrial research in the utilization of industrial wastes in Iowa, including cornstalks, corncobs, oat hulls, etc. The investment of this amount should result in financial returns many times greater to the farmers of Iowa for products which are now wasted.
- b. Extension Work in Agriculture and Home Economics: Less than \$30,000 additional is assigned to this work. Cooperative creameries, cooperative elevators and cooperative livestock shipping associations have all made urgent requests for additional extension assistance to make their work of great value to the agricultural interests of the state. The poultrymen have requested more assistance in the standardization and grading of eggs in order to realize more return on their products. The work for women in the farm home is badly in need of expansion, and more workers should be provided. There is great need for more Boys and Girls Club workers.

These would be located right in the rural communities and not at Ames.

- c. Apiary Inspection Work: Annual increase \$4,500. The present appropriation is inadequate, and this additional sum, though small, would greatly aid the work. The beekeepers have made many urgent calls for assistance, and feel their industry is in danger unless help can be given them.
- d. Engineering Extension: Annual increase \$5,000.
- e. Agricultural Experiment Station: Annual increase \$10,000.
- f. Engineering Experiment Station: Annual increase \$7,000.
- g. Veterinary Investigations: Annual increase \$7,500.

These increases are only nominal, considering the importance of the work performed. There is urgent demand for expansion of the service given by the College in extension and experimentation along the lines of agriculture, engineering and veterinary medicine, but they have received no increase in funds for four years.

BRIEF ARGUMENTS IN SUPPORT OF RECOMMENDA-TIONS FOR APPROPRIATIONS FOR THE IOWA STATE TEACHERS COLLEGE

The Askings of the Iowa State Board of Education for the use and benefit of the Iowa State Teachers College for each year of the biennium that will begin July 1, 1927, are as follows:

Administration and General Expense	60,000.00	
Physical plant operation and maintenance	100,000.00	
Educational Purposes	479,024.00	
Extension Purposes	50,000.00	
Summer Schools Extension	35,000.00	
Hospital	8,250.00	\$ 732,274.00

The askings of the Iowa State Board of Education for the support of the Iowa State Teachers College, for the biennial period that will begin July 1, 1927, are based on the total appropriations granted by the 40th General Assembly. This amount has been apportioned to the different kinds of work as future needs may require, including new buildings.

The accompanying financial statement gives in detail the appropriations granted by the 40th General Assembly and the 41st General Assembly, and the proposed askings of the 42nd General Assembly. These are arranged so that comparisons can easily be made.

The Iowa State Board of Education calls attention to the following arguments in support of these askings:

The constant development of the departments of the Iowa State Teachers College, the great increase of students of higher classification, the necessary enlargement of the facilities for the proper training of this constantly growing class of candidates for graduation, the regular necessity for a properly arranged improvement of the new parts of the campus, and the avoidance of a scale of wages and salaries that would compel the employment of an inferior and incompetent personnel in all the different staffs, require the total amounts of appropriations here outlined.

Reasons for Increases of certain Appropriations here listed: 1. Administration and General Expenses (Annually)\$4,500.00

There must be an increase in the appropriation for Administration and General Expenses of \$4,500 a year to meet the demands that the past period has demonstrated; and, while it is a small amount, yet it is believed to be adequate to meet the requirements of the next biennium and relieve the situation permanently.

2. Physical Plant Operation (Annually)......\$9,500

The item here listed indicates an increase of \$4,500 for Physical Plant Operation and Maintenance for the next biennium. It should not be difficult to realize that, with the increased facilities given by the enlarged grounds, the increased fuel required for heat and light, and the corresponding increase in labor that followed this most desirable improvement in buildings and grounds, there would be added expense in conducting this part of the work as it should be.

3. Educational purposes (Annually)......\$66,024

The college standard of teachers that should always exist is well known. The adjustments required in a reasonable system of promotion; the securing of suitable and strong candidates for prominent vacancies that will constantly occur; the necessity of maintaining standards that meet in full the requirements of good training in all instructors employed, both in the regular sessions and in the summer sessions, all unite to compel an increase in the appropriation for Educational Purposes without having any intention to increase the average salary paid, or to add new departments, or to expand the services that can be now rendered to the people of the state. Hence an increase of \$66,024 is requested for 1927-29. Without this added support, the Iowa State Teachers College can not expect to keep the present staff satisfied and it would be compelled to reduce the efficiency of the total membership of the staff at work

from year to year; an act that would make the Teachers College unsatisfactory to its patrons. This is a very vital matter and should be considered on its merits in a most judicious manner. The most extravagant expenditure that can be made in all matters of public welfare and public enterprise, is that of failing to recognize that a college or a school is practically worthless and undeserving of approval when it is not superior in its facilities for training and in its adequacy to meet the demands of the times.

4. New Heating and Power Plant (Biennium)......\$325,000

Attenton is directed to the extreme effort made during the last period to economize and practice prudence in order to save the Contingent Fund as a part appropriation for a New Steam Plant and Power Plant. The expenditures of the Iowa State Teachers College could easily have been so managed as to have made a real necessity for the use of the Contingent Fund. Knowing the imperative necessity for the rebuilding and re-equipping of the Steam and Power Plant not later than 1925-26, the efforts at economy were continuous in order to assist the people of the State in providing for this new building and equipment by carefully saving the \$100,000 that was in hand. This was done by increasing tuitions of the students so that this Contingent Fund could be given as a part payment for such construction. The 41st General Assembly, by not granting the entire request of the State Board of Education, compelled us to increase tuition and fees, which increase became effective September 1, 1925. This resulted in an increased income from the students of the State Teachers College amounting to between \$72,000 and \$73,000 for the twelve months period.

The General Assembly must now be urged to add a sufficient amount in order to give the College a superior and adequate Heating and Power Plant at once and thus protect the work at Cedar Falls by an immediate order to provide such necessary investment.

The Contingent Fund should again be granted to provide support for the actual work organized. The increase of tuitions can not again be made, and the expenditures can not be reduced, so that this emergency fund must be continued for the next biennium.

The State Board of Education is also recommending a biennial appropriation of \$161,952 to provide for future growth and development.

BRIEF ARGUMENTS IN SUPPORT OF RECOMMENDA-TIONS FOR APPROPRIATIONS FOR THE IOWA SCHOOL FOR THE BLIND

The Askings of the Iowa State Board of Education for the use and benefit of the Iowa School for the Blind for each year of the biennium that will begin July 1, 1927, are as follows:

Salaries, Support and Maintenance \$ Special Purposes: Sundry Equipment Piano and Furniture General Improvements	1,500.00 2,000.00 1,500.00	\$	89,100.00
Capital Purposes:			
New Coal Bunkers	4,000.00	for	biennium
New Boiler	3,000.00	for	biennium
Cottage for small children	50,000.00	for	biennium

The accompanying financial statement gives in detail the appropriations granted by the 40th General Assembly and the 41st General Assembly, and the proposed askings of the 42nd General Assembly. These are arranged so that comparisons can easily be made.

The Iowa State Board of Education calls attention to the following arguments in support of these askings:

1. Salaries, Support and Maintenace (for the biennium)..........\$168,209

Because of the increasing attendance at the Iowa School for the Blind, the Iowa State Board of Education is asking an increase of \$1,000 a year for salaries, support and maintenance.

2. Special Purposes (for the biennium)......\$10,000

The total request for Special Purposes is the same that the institution is receiving at the present time.

3. Additional Needs a. New Coal Bunkers.....\$4,000

The present coal bunkers were built a good many years ago and they are in poor condition. An appropriation for new bunkers ought to be granted.

b. New boiler\$3,000

The Boilers are old. An appropriation is needed.

c. Cottage for Small Children\$50,000

In order to secure effective and efficient results, the smaller children should not be permitted to be in constant communication and association with older pupils. At the present time and with the

present plant, separation is impossible. All over the country the special institutions are building cottages for small children. If the Iowa School for the Blind is to continue to be recognized as a leading institution, arrangements for such a building must be made.

BRIEF ARGUMENTS IN SUPPORT OF RECOMMENDA-TIONS FOR APPROPRIATIONS FOR THE IOWA SCHOOL FOR THE DEAF

The Askings of the Iowa State Board of Education for the use and benefit of the Iowa School for the Deaf for each year of the biennium that will begin July 1, 1927, are as follows:

Salaries, Support and Maintenance\$. Special Purposes:	207,500.00		
Repairs and Contingent	10.000.00		
Library and Book Binding	1,000.00		
Equipment	12,500.00	\$	231,000.00
_			
Capital Purposes:			
Electric Generator	20,000.00	for	biennium
Addition to Cottage for small children	90,000.00	for	biennium
Home for Superintendent	10,000.00	for	biennium

The accompanying financial statement gives in detail the appropriations granted by the 40th General Assembly and the 41st General Assembly, and the proposed askings of the 42nd General Assembly. These are arranged so that comparisons can be made easily.

The Iowa State Board of Education calls attention to the following arguments in support of these askings:

A. Support Fund (for each year of the biennium)......\$207,500.00

This amount is composed as follows:

Two years ago the 40th General Assembly made an appropriation of \$195,000 for each year of the biennium that began July 1st, 1925. Because of the increase in attendance this amount will be inadequate for the coming biennium. With from forty to fifty new pupils expected this year and a possibility of almost as many new ones for the following year, a corresponding increase in teaching staff and general help will be necessary. At least four additional teachers for the academic department, several attendants and servants will be absolutely required to properly care for this increase in the enrollment. Some increases in salaries must come if we are

to hold our best teachers and maintain the high standing of the school. To illustrate this point the following is cited: The Supervising Teacher in Primary Hall, who was receiving \$1,500 a year with living, resigned last spring to accept a straight teaching position in a school for the deaf of another state at a salary of \$1,700 a year with living.

B. Special Appropriations for the biennium beginning July 1st, 1927..\$47,000 1. Repairs and Contingent\$20,000.00

This amount will be needed to meet Contingent expenses and to repair the various buildings making up the plant. The roofs of the boiler house and the hospital are in bad condition and will probably need renewing next year. Considerable interior repair work is needed and extensive painting, both interior and exterior, will be required to maintain respectability.

2. Library and Book Binding......\$2,000.00

The 40th General Assembly made an appropriation of \$2,000 for the biennium for the purchase of books, etc. No other appropriations have such educational value for pupils of the School for the Deaf as have the funds devoted to these purposes. This appropriation should be renewed.

The appropriation of \$25,000 for the biennium is needed for the following purposes:

a.	New equipment for industrial department	\$7,500
b.	New tailor shop	2,000
c.	Water Softener	4,000
d.	General equipment for the heating & power plants	5,000
e.	Farm and grounds	2,500
f.	Equipment for house	2,500
g.	Equipment for laundry	1.500

The 40th General Assembly made an appropriation of \$20,000 for equipment but the amount was too small, making it necessary for some much-needed equipment to wait because of insufficient funds.

A deaf person skilled in a trade can always find lucrative employment. The Industrial Department of the School for the Deaf has made rapid strides within the past few years; but there is still room for improvement, and additional equipment is the only solution. If the graduates successfully compete with their hearing brothers and sisters in the modern industrial trades, it is absolutely essential that the industrial shops be modern and up to date.

The industrial school should be broadened, as conditions warrant it, by adding new departments from time to time. Because of the increased attendance, the shops are becoming crowded making the time ripe when a new department should be added. It is therefore recommended that a Tailor shop be added at this time. The deaf fit nicely into this trade and the field covers a wide territory.

A water softener should have been installed during the present biennium, but an insufficient equipment fund has made it necessary to wait for new appropriations. As the water is very hard, a water softener should pay for itself in short order through a saving in the coal bill. The general heating plant contains many old parts which are constantly being replaced. The addition of a few recording instruments would make possible a greater operating efficiency of the entire plant and hence a corresponding saving of fuel. The ice plant should be enlarged as we are frequently short of ice.

The farm needs new equipment, and fences should have proper care, while the trees, driveways, lawns and garden will require considerable attention.

The fixtures in all buildings, especially the plumbing and toilet facilities, demand the constant vigilance of the engineers. The main kitchen will need some new equipment. Most of the equipment of the laundry is very old and may cease to function entirely at any time as indeed it has already threatened to do.

C. Additional Needs.

1. Electric Generator\$2

The load on present generators has increased to such an extent within the past few years that they are now working to capacity and are frequently required to carry an overload of dangerous proportions. The greater danger however lies in the effect of this overload on the present wiring system which was not intended by the designer to carry such heavy currents. The heat developed in the present circuits is so great that the fuses on the main switch boards are constantly blowing out. This condition should be taken as a warning. In order to remove the hazards attending such conditions, it is evident that a new generator of larger capacity should be installed and in any event new wiring must be provided. From the standpoint of economy, it is recommended that a three-phase alternating current machine replace the present obsolete D.C. Generators. Many of our D.C. motors are worn out and

must soon be replaced. A.C. motors cost considerably less. The wiring of A.C. circuits costs much less than that of D.C. circuits, because the copper employed is about one third less. With an A.C. generator and wiring installed, it would be possible to connect in with outside current the use of which, during the time when exhaust steam is not needed for heating buildings, would enable us to make a considerable saving, estimated to be not less than \$3,000 a year.

2. Addition to Primary Hall (cottage for small children)...\$90,000.00

New pupils coming in this year will fill the institution to capacity; those coming in the following year will overflow it. Not only is dormitory space lacking, but school rooms are lacking. The contemplated addition to Primary Hall will provide living quarters for at least forty more pupils as well as several school rooms. Even if the additional space were not needed to care for the increasing enrollment it should still be provided because of its great value in the education of the deaf. Beginning pupils should remain in this building for four years. As it is, all are pushed out in two years, some even in one.

3. Home for Superintendent......\$10,000.00

Quite a number of other states have provided homes for the heads of their schools for the Deaf. Still others are making such provisions. Even in this state the heads of a number of the State Institutions have separate homes for their families. Why provide for some and not others? The problems of conducting the affairs of the institution and the raising of a family are essentially the same for all. A home for the Superintendent of this school at this time would permit teachers now housed in pupils' dormitories to move out and thereby relieve a condition which is very unsatisfactory and should not exist.

STATISTICAL REPORT Iowa State Board of Education Des Moines

For Period Ending June 30, 1926

ENDOWMENT FUND OF THE IOWA STATE COLLEGE OF AGRICULTURE AND MECHANIC ARTS

The Permanent Endowment Fund of the Iowa State College of Agriculture and Mechanic Arts, as reported at the close of the preceding biennial period, stood as follows:

Loans in force June 30, 1924 \$624,400.00 Cash in hands of State Treasurer, June 30, 1924 70,553.32
Total Endowment Fund, June 30, 1924
Total Fund, June 30, 1926\$694,982.07

The foregoing increase to said fund was received by the Treasurer of State from the Treasurer of the College, being receipts from minor incidental sources.

During the biennial period ending June 30, 1926, the movement of this fund has been, as follows:

Loans in force June 30, 1924. \$214,000.00 Loans made \$214,000.00 Loans paid 164,100.00	.\$624,400.00
Loans increased during biennium	\$ 49,900.00
Total loans in force June 30, 1926	\$674,300.00 20,682.07
Total Endowment Loan Fund June 30, 1926	\$694,982.07

Loans amounting to \$145,400.00 were renewed during the biennium in addition to the item of loans made.

Loans past due are, as follows:

Loan No. 1103 for \$5,500.00 Kossuth County;

Loan No. 1167 for \$1,000.00 Jasper County.

Delinquent interest is being reduced quite generally, and interest payments are reasonably prompt.

C. S. CORY, Registrar.

COMMENTS OF THE PRESIDENT The Biennium 1924-1926 The Biennium 1926-1928

Educational Policies and Plans-

In submitting this report covering the forty-ninth and fiftieth years of the State Teachers College, it seems appropriate to ask those officers and people of the state of Iowa who are particularly interested in the progress and development of popular education to stop and review the remarkable enterprise, the astounding growth and the immense investments that the people of the state have made in primary, elementary, secondary and higher education during the past half century. To one who had the opportunity to be a pupil in the first free public school opened under the laws of Iowa in 1855 in English River township, Keokuk county, Iowa; to one who received secondary education at the state preparatory school at Iowa City before high schools were founded and equipped to meet such emergency; to one who found the State University ready to give collegiate and professional instruction to Iowa young people in 1869, it is evident that the Iowa General Assembly, representing the wishes of the people of the state, has always had a forward look and a patriotic faith that has given the Iowa boys and girls a chance to be prepared to walk shoulder to shoulder in the ranks of civilization as developed and demanded in the United States of America. Of these things there has been a proud record that has placed Iowa people in the ranks of all occupations, professions and services with other men and women of the civilized world.

In this service the Iowa State Teachers College has been granted a well-recognized part, and its undertakings have been so graciously appreciated and its product of intelligence so heartily welcomed that it has had a financial support, a plant development, a course of instruction and a type of training that is notably of superior grade and commendable rank. As evidence of this fact one needs but inspect the list of graduates of this half century to discover that the children of Iowa, educated at Cedar Falls, have been able to obtain well accorded recognition in all the states of the Union as educators and publicists, citizens and welfare workers, leaders and thinkers. In addition, they are in all mission fields of foreign lands and have given particular contributions in the most distant parts to the subsidiary peoples under the encouragement and the leadership

of the American republic.
The Coming Demands—

The Iowa State Teachers College began its second period of fifty years July 1, 1926. Its board of management and its faculty of instruction faces a demanding present and an immensely important future. The United States must be saved from the results that the. history of the past has recorded about most prominent nations or else democracy and representative government have not the permanence and effectiveness that its people prophetically deserve to have. Among the agencies that are first and foremost are the organized institutions that are maintained to foster and to increase the advantages of public education. There can be no retrogression; there should be no lack of faith, there ought not to be any hesitancy to invest in the only things that are permanent in morals, in mentality and in spirituality. The conclusion to go ahead with the permanent factors in progressive civilization in Iowa must mean a positive backing of the undertakings of the State Teachers College as an actual worthy agency to assist practically in the uplift of all the coming citizens by enlarging their prospects and by developing their outcome by honest, thorough and efficient instruction and training.

Respectfully submitted, HOMER H. SEERLEY, President.

REPORT OF THE SUPERINTENDENT, SCHOOL FOR THE BLIND

F. E. PALMER, SUPERINTENDENT

Section 2717 of the Code requires that I should report the following: Number of pupils in attendance, name, age, sex, residence, place of nativity, cause of blindness, studies pursued, trades taught, expenditures made, and the number, kind and value of articles manufactured and sold.

Herewith are submitted the statistics and other facts required by law, as well as some other items which may prove of interest to the State Board of Education.

1924-1925

	13	924-1925		
Name of Pupil	Age	Sex	Residence	Nativity
Allison, Lloyd	21	Male	Iowa Falls	Missouri

CAUSE OF BLINDNESS

Regarding the causes of blindness, I am in doubt as to whether the statute requiring a report of this character contemplates the original cause of blindness or the immediate cause. I have concluded to make the report on the original cause so far as that can be determined.

It is as follows for the entire list of students enrolled during the biennium:

STUDIES PURSUED

In many respects the School for the Blind follows the same line of studies as the schools for the sighted. We have not only the usual eight grades admitting to high school standing, but the high school as well, and any boy or girl graduating from the academic department of the School for the Blind is prepared to enter the State University or any of the colleges of Iowa. The course of study is practically the same as that of the schools for the sighted. Mathematics, English, History, Spelling, Writing, Geography, Science and Latin are all included in the course of study.

However there are some important differences. In the Iowa School for the Blind each pupil, unless excused by the nurse or the school physician, is required to take physical training work and for this purpose an hour a day is given to gymnastics. I believe that this work has been of great value to the pupils of the Iowa School for the Blind, not only from the standpoint of health but also from the standpoint of muscular movement. A great many blind children are naturally timid, others are inclined to inactivity because of blindness, and the training that they get in the gymnasium has been of incalculable benefit to them in over-

coming either timidity or inactivity.

Every pupil is required to take some industrial work, unless there are other handicaps than blindness. This requirement is based upon two conclusions: First, we believe that such industrial work has an educational value outside of its vocational value; second, we believe that every pupil should be trained in the means of self-support. It is perhaps true that all of our pupils will not enter the vocations for which the School for the Blind prepares them. Some of them will, as experience has shown, and all of them should go from the school prepared for some useful occupation along the lines of our instruction, useful at least until some more inviting opportunity presents itself, as also experience has shown. To this end we offer a course in basket making, rug and carpet weaving, chair caning, broom making, hammock tying, piano tuning, and dictaphone operating. Since the greenhouse has been built, we have done some work in the field of floriculture. However, as yet, the work has not been systematized and I cannot make an intelligent report along this line. We are hoping, in the near future, to make an intelligent and valuable use of the greenhouse for educational purposes.

I am of the opinion that many of our totally blind boys and girls may come into a fine appreciation of flowers through the sense of smell. And then, there are others who have some sight who may be able to reap

some practical rewards as a result of the study of floriculture.

In this connection I may say that we have had under consideration the establishment of a model store for the blind, where our boys and girls may be taught correct business methods, as well as some of the fundamental principles of salesmanship. Too often it is taken for granted that a blind boy or girl is limited to the simple occupations that require training in touch only, while experience has shown that blind men and women have become successful in business. It is not a question of blindness; it is a question of the boy and girl, a question of their natural tendencies, a question of their individual capacities. There have been seven reunions held in Vinton since I have had charge of the work of the School for the Blind. To these reunions have come blind men and women, most of them graduates of the school, from all parts of the state, as well as from other states. Most of them would be called successful. There have come successful business men, successful lawyers, successful osteopaths and chiropractors, successful teachers, successful preachers, successful industrial workers, successful musicians, successful homemakers. The point is that we cannot, nor do we want to, educate the child contrary to his natural tendencies, provided those tendencies be wholesome and serviceable; but, on the contrary, we must endeavor to draw out the best that is in him, until every static force for good becomes dynamic. There are perhaps many, many lines along which blindness is not insuperable and I feel that our work should have a very broad educational basis.

I have referred to important differences when the Iowa School for the Blind is compared to the schools for the sighted. This is nowhere better illustrated than in the department of music. In this department the work has a two-fold purpose: First, to train the child in a proper interpretation and appreciation of music; second, to test the pupils with reference to a musical career. Some work is required of all, and all musical studies are within the election of all uness, in the judgment of the teachers, it would be a waste of time to continue the study of music. In the pursuance of these purposes we are conscious of the fact that mistakes have been made; but on the whole it has had beneficial results. It has led to the discovery of one or two students who may be highly successful in the field of music. We are offering, under the guidance of competent teachers, instruction in voice, violin, piano and organ, and orchestra. Every student is required to take some voice work; all are encouraged to test themselves in other lines. A year or so ago we organized among the small boys a "kinder band." It was a mere experiment in the effort to teach rhythm and tone and time. It was an experiment that succeeded beyond my expectations, and the work has been extended to include the small girls. The original band consisted of eight primary boys. Three of them played the mouth organ; two the bones; one the snare drum; one the triangle, and one the cornetina. After eight weeks' practice these boys, under the leadership of Mr. Charles Olson, teacher in the tuning department, played at Chapel, much to the delight of all present. During the past year other instruments have been added. In this connection permit me to say that blindness is no asset in the field of music. It is commonly supposed that the blind are more musical than the sighted. I do not believe that this is true. If the blind achieve greater results it is because of closer and more persistent application as well as superior instruction on the part of teachers. However music is a wonderful asset to the blind and should be encouraged.

TRADES TAUGHT

This part of the report has probably been made with sufficient fullness under the topic "Studies pursued," but it may not be out of place to

restate them for the sake of clearness. We have been teaching the following trades:

Broom-making, chair-caning, pattern weaving, rug and carpet weaving, basket-making, hammock tying. Besides these, perhaps not to be considered as trades, but preparation for future occupation, there are typewriting and dictaphone operation, together with music. When dictaphone operation and typewriting are mentioned it is at once concluded by many people that they are useless as occupations for the blind; but it must no be forgotten that there are a great many boys and girls who have sight enough to enable them to correct their own work. Besides they are not wholly impracticable for pupils who are totally blind. Experience has demonstrated that the totally blind may make successful typists and dictaphone operators. In the teaching of these occupations we have not lost sight of the great educational value of hand-training through such occupations. I refer to this fact because frequently we have parents who bring pupils to us to whom these trades and occupations seem foreign to their own plans for their children. However we believe that they give important means of education in the broad sense of the term.

EXPENDITURES AS RELATED TO TRADES TAUGHT

There was spent the following:

The above tables give a fair representation of the work done in the Industrial Department. The table is based upon selling price or marked price. In connection with the above tables it should be remembered that much of the materials manufactured is requisitioned by the school and therefore is not accredited to the amounts under the column "Amounts received from sales." Besides there still remain in the industrial rooms many articles that have been kept for exhibit purposes or which have not been sold. Were these all to be sold, the total would be very greatly

Although I am not required by law to make further reports, yet I am taking the liberty of doing so, believing that the following tables will be of interest:

During the biennial period 1924-1926 the Iowa School for the Blind has received for Salaries, Support and Maintenance the following funds:

1	1924-25	1925-26
Appropriations\$		\$ 83,100.00
Interest on funds	739.71	713.15

REPORT OF PHYSICIAN

Superintendent F. E. Palmer,

Iowa School for the Blind, Vinton, Iowa:

I have the honor to submit the report of the Medical Department of the Iowa School for the Blind for the biennial period that ended June 30, 1926.

Each pupil, on admission to the school, has received a physical examination, as have all the pupils at the opening of the school year. Vaccination for smallpox and toxin-antitoxin treatment against diphtheria are required of each pupil. The height and weight of every pupil are taken and recorded each month of the school year; faulty nutrition is observed, and efforts at correction are made. Any disability, however trivial, must be reported so that early treatment may avoid many serious complications. During this period just passed, health conditions have been unusually saisfactory. During the first year of this biennial period Doctor W. F. Boiler made three visits to the school and during the second year Doctor C. S. O'Brien made two visits, at which visits ocular examinations and diagnoses of all the pupils were made.

During the year 1924-25 there were 80 cases treated in the hospital, most of which were slight infections requiring but a day or two in the house. There were 8 contagious cases: 3 smallpox; 3 chickenpox; 1 erysipelas; 1 pneumonia. The average of daily inspections and treatments in the hospital was 40. During this year 21 pupils were sent to the University Hospital at Iowa City for special attention.

During the year 1925-1926 there were 40 cases treated in the hospital most of which were trivial infections. The average number of daily inspections and treatments was 20. During this year 24 pupils were sent to the University Hospital at Iowa City for special attention.

Respectfully submitted, (Signed) J. E. Luckey, Physician.

June 30, 1926.

Iowa School for the Deaf Council Bluffs

Biennial Report Period Ending June 30, 1926

REPORT OF THE SUPERINTENDENT OF THE SCHOOL FOR THE DEAF

O. L. McINTIRE, SUPERINTENDENT

To the Iowa State Board of Education:

I herewith submit for your consideration the thirty-seventh biennial report of the Iowa School for the Deaf, covering the period from July 1, 1924, to June 30, 1926, and accompanied by statistical tables and a sum-

mary of appropriations required.

In October, 1925, after serving as superintendent of the Iowa School for the Deaf for a period of six years, Mr. E. A. Gruver resigned his position to accept a similar one with the Pennsylvania Institution for the Deaf at Mt. Airy, Philadelphia, the largest institution of its kind in the world. The incumbency of the present superintendent began December 1, 1925.

In assuming the duties of my new office, it is gratifying to find a carefully built up organization, running smoothly and admirably adapted to the needs of the Iowa school. It is further gratifying to note the interest manifested by employees in the faithful and efficient performance of their various and sometimes arduous duties. Progress in every department of the school is in evidence. All buildings, some of which are quite old and not up to present-day standards, and in one or two cases entirely inadequate, present a neat and orderly appearance, showing a close supervision in the matter of repairs and general up-keep. It is sincerely hoped that the new appropriations will make ample provisions

for a continuation of the policy.

This school within recent years has experienced a remarkable growth in attendance. In 1919 the records show an enrollment of 148 pupils. During the past year, ending in June, 1926, there was a total enrollment of 302 pupils of whom 134 were girls and 168 boys. This is an average increase of 22 pupils a year. Applications for the admission of new pupils on file at this time indicate that the rate of increase is being maintained if, indeed, it is not somewhat accelerated. All departments are now filled to capacity. The fall term will tax our dormitory space to the utmost. All available school rooms will be occupied, and classes in the industrial school are growing too large for efficient instruction. The proposed new wing to Primary Hall will provide living quarters and school rooms for forty additional pupils. In the light of modern methods, this new wing will be an important adjunct in the teaching of the deaf, as it will enable us to surround our younger children with a purely oral atmosphere for a longer period of time. The popular demand for this feature is rapidly gaining momentum. A new tailor shop added to the industrial school will relieve the overcrowding now existing in some of the trade departments, and, at the same time, broaden our industrial field which is considered very desirable at this time.

The general health of the school during the biennium was good. While we had our share of colds and influenza in a light form, no severe epidemics visited the institution and no deaths occurred. A number of minor operations were performed and a few of the major type, but all made rapid recoveries. Under the directions of the attending physician to the school, Dr. Mc. M. Hanchett, periodical physical examinations are made of all pupils, and their general health is closely guarded. The teeth of the children receive special attention, Dr. B. B. O'Meara devoting

the morning of each day to this work.

During the year Miss Alice L. Crampton, who was the teacher-incharge of Primary Hall, resigned to accept a position in the New Jersey School at a considerable increase in salary. We were fortunate in being able to secure as her successor Miss Anna Hallman, who has had a wide experience in teaching the deaf and has taught in Primary Hall for the past two years. The incompleted school organization as it now stands has Dr. J. Schuyler Long as principal with Miss Florence Wilcoxson as his assistant, Miss Cornelia Dunlap as supervising teacher of primary classes and Tom L. Anderson as teacher in charge of the industrial work. It seems advisable to place a supervising teacher in charge of the intermediate classes as soon as a desired person with the required qualifications can be secured. This will strengthen the organization and facilitate the instruction.

Two new water-tube boilers, with increased capacities and equipped with chain grate stokers, were installed during the biennium and at this time are giving good service with a corresponding saving of fuel. It has been quite clearly shown that a further saving can be effected by the installation of a water-softener, as the water obtained from our wells contains much mineral matter which rapidly forms scales on the boiler tubes, thereby diminishing the boiler efficiency. In this connection it has also been pointed out that an annual saving can be made by replacing the present obsolete type of D. C. generators with Standard 3-phase A. C. machines, as this would make possible the use of outside current during the time when exhaust steam cannot be utilized for heating purposes. The three surface wells put down three years ago are gradually failing, giving us a shortage of water during peak demands. To meet the emergency, a deep well is being drilled at this writing. It is hoped that an abundance of water will be secured.

I respectfully call your attention to the summary of appropriations

required to carry on the work for the coming biennial period.

a.	General Support Fund (two years)	\$415,000.00
b.	Repairs and Contingent Fund (two years)	20,000.00
c.	Library and Book Binding Fund (two years)	2,000.00
ď.	Equipment Fund (two years)	25,000.00
u.	Equipment Fund (two years)	25,000.00
	Distributed as follows:	
	Industrial Department\$7,500.00	
	New Tailor Shop	
	Water-softener 4,000.00	
	General, for Heating and Power Plant 5,000.00	
	Farm and Grounds	
	Household	
	Laundry 1,500.00	
e.	Electric Generator and Wiring	20,000,00
f.	Addition to Primary Hall	90,000.00
g.	Home for Cupmintendent	10,000.00
٥.	Home for Superintendent	10,000.00
	Total	0500 000 00
	Total	\$582,000.00

Your attention is respectfully directed to the accompanying statistical tables for details of the number of pupils, the purchases and sales, ex-

penditures and receipts.

I wish to express my hearty appreciation of the advice and co-operation of the Iowa State Board of Education and of the Finance Committee; of the ever-ready assistance of those engaged with us in conducting this work and also of the courtesy extended us by the many friends of the school.

Respectfully submitted, O. L. McIntire, Superintendent.
